Important Notice

Notes to foreign applicants who enter Japan from overseas

Applicants who wish to enroll at Hokkaido University as international students are required to obtain a "Student" status of residence. Therefore, you must apply for a Student Visa before entering Japan. To apply for a Student Visa, a Certificate of Eligibility (COE)* is required.

Please note that the issuance of the COE may take more than three months from the time of application due to Security Export Control inspections and immigration procedures.

Additionally, please note that if your intended research falls under the regulations of the Security Export Control Regulations, restrictions may apply.

*Certificate of Eligibility: This is a certificate that the Immigration Bureau pre-approves applicants' purpose of stay in Japan and speeds up the visa application process.

Admission Policy of Graduate School of Life Science

The Graduate School of Life Science provides students with the training that allows them to acquire an interdisciplinary knowledge of advanced life science, from the level of molecules to organisms. We provide comprehensive education with participation by instructors specialized in fields in the basic and applied life sciences, science, pharmaceutical science, medicine, and agriculture.

▪ Type of Students We Seek

<Division of Clinical Pharmacy>

The Division of Clinical Pharmacy (Doctoral Course) is based on clinical research and provides practical training, including medical systems, regulatory science, and the development and evaluation of advanced medical treatments.

The mission of this division is to train researchers and technicians in medical and clinical pharmacy, providing them with the competence and technical skills to expeditiously identify problems that arise in clinical practice and to solve them using the basic theory and techniques of pharmaceutical science. The Division of Clinical Pharmacy is closely allied with the Master's and Doctoral Courses in Biomedical and Pharmaceutical Science (Division of Life Science), which provide graduates with the flexibility to adjust to social expansion of the pharmaceutical system; give them the training and background necessary to elucidate the molecular mechanisms of disease; and teach them how to use these results to develop theories and techniques in the discovery of new drugs.

To realize these goals, we seek students who 1) can commit to learning state-of-the-art drug development and basic medical and pharmaceutical science, and 2) aim to become leading health care workers with sufficient experimental and analytical skills to apply what they learn in practical clinical situations.

▪ What is Expected to be Learned Before Admission

1. Basic academic skills and knowledge in Pharmaceutical Sciences and Life Sciences
2. Basic knowledge in each specialized field that is necessary to engage in research in the graduate school

▪ Principle Selection Policy (Multiple-layered Evaluation Method)

【General Category】

By written examination, applicants will be evaluated their levels of “ability to think/judge/express”, “comprehension” and “knowledge and skills”.

By oral examination, applicants will be evaluated their levels of “knowledge and skills”, “ability to think/judge/express”, “ability to work independently and cooperatively”, “comprehension”, “interest and motivation”, “ability to identify problems” and “ability to solve problems.”

The Graduate School of Life Science will assess applicants on the basis of their entrance examination (written and oral exams) and the application documents (such as research plan, transcript, etc.).

【Special Category for Working-Adults】

By oral examination, applicants will be evaluated their levels of “knowledge and skills”, “ability to think/judge/express”, “ability to work independently and cooperatively”, “comprehension”, “interest and motivation”, “ability to identify problems” and “ability to solve problems.”

The Graduate School of Life Science will assess applicants on the basis of their entrance examination and the application documents (such as research plan, transcript, etc.).

【Special Category for International Students】

By oral examination, applicants will be evaluated their levels of “knowledge and skills”, “ability to think/judge/express”, “ability to work independently and cooperatively”, “comprehension”, “interest and motivation”, “ability to identify problems” and “ability to solve problems.”

The Graduate School of Life Science will assess applicants on the basis of their entrance examination and the application documents (such as research plan, transcript, etc.).

11. Extension of the Enrollment Duration

It is possible to extend the standard years of study at the Graduate School of Life Science. Read "Extension of the Enrollment Duration" on page 15 and submit an application if you wish to take advantage of this scheme.

If you have any questions regarding the application procedure, please contact the following:

<p>Graduate School Educational Affairs Section Science and Life Science Administration Department Hokkaido University Kita-10 Nishi-8 Kita-ku, Sapporo 060-0810, Japan</p> <p>Office hours (weekday): 8:30 a.m. – 5:00 p.m. except 12:15 p.m. – 1:00 p.m.</p> <p>Tel: +81-11-706-3675 E-mail: r-gakuin@sci.hokudai.ac.jp</p> <p>Graduate School of Life Science, Hokkaido University https://www.lfsci.hokudai.ac.jp/en/</p>

Extension of the Enrollment Duration

1. Aims

When students are under special circumstances such as having a job, etc. (including child and nursing care), they may apply for an extension of enrollment duration which exceeds the standard enrollment duration (4 years)(hereinafter referred to as "Extension of the Enrollment Duration"). The graduate school may approve such requests after reviewing their application.

2. Intended Students

Students who fall under one of the criteria below and wish to set the enrollment duration longer than the standard duration:

- (1) Have a full-time job in a public office or company (excluding those who are exempt from job duty but receive a salary), or are self-employed;
- (2) Have a part-time job that has a significant influence on the full-time academic work;
- (3) Are taking care of children or other family members, which has a significant influence on the full-time academic work; or
- (4) Are visually impaired, hearing impaired, physically handicapped, etc., which are deemed to have a significant influence on the academic work for an extended period of time.

3. Maximum Enrollment Duration

The maximum enrollment duration is 6 years for the doctoral degree program, and a student can apply for an extension by the year.

Note that the maximum duration of a temporary leave of absence is 4 years.

4. Application Procedure

(1) Application Period

Please submit complete application documents for Extension of the Enrollment Duration together with the application documents for the graduate school.

(2) Required Documents

- ① Application Form for Extension of the Enrollment Duration (Form 1)
- ② Research Plan during the Enrollment Duration (Form 2)
- ③ Statement of reasons why an applicant needs the Extension (discretionary format).

(3) Announcement of Application Results

The Graduate School of Life Science reviews each application individually and will notify the results to the applicants who passed the entrance examination.

5. Reducing or Extending the Duration of Enrollment

When regarded as necessary, the Graduate School of Life Science may approve Reduction or Extension of the Enrollment Duration only once.

For details, please check the information board for current students after completing enrollment procedures.

6. Annual Tuition Fee

The tuition fee for students with the extension of enrollment duration will be calculated by multiplying the annual tuition fee by the number of years equivalent to the standard duration of study (4 years), then dividing the resulting amount by the number of years approved for extended study. If the revision is made to the tuition fee or the changes to the Duration of Extended Enrollment are approved, the fee will be calculated accordingly. However, the adjustment will not be made to the tuition fee which has already been paid.

Students who have not received the results of their application for the Extension of Enrollment Duration must not pay the tuition fee before they receive the official notification of the results.

7. Other Information

For details about the Extension of Enrollment Duration and request for application documents, please contact the Graduate School Educational Affairs Section, Science and Life Science Administration Department, Hokkaido University.
